NOTES:

Instructions: Circle the descriptors that best describe individual's current circumstances and clinical presentation. Then choose the highest score in which at least one answer is circled. Place that score in the box for the dimension on the right of the page. Add all scores for the composite score. NOTE: Use only one of either VIa or VIb in composite score. Choose the highest score. NOTE: any score of 4 or 5 in Dimensions 1,2, or 3 have independent placement criteria required regardless of the composite score or scores on other dimensions. Use the dimensional scores and the CALOCUS Decision Tree to determine the Level of Care
